

Cross border vocational high quality education

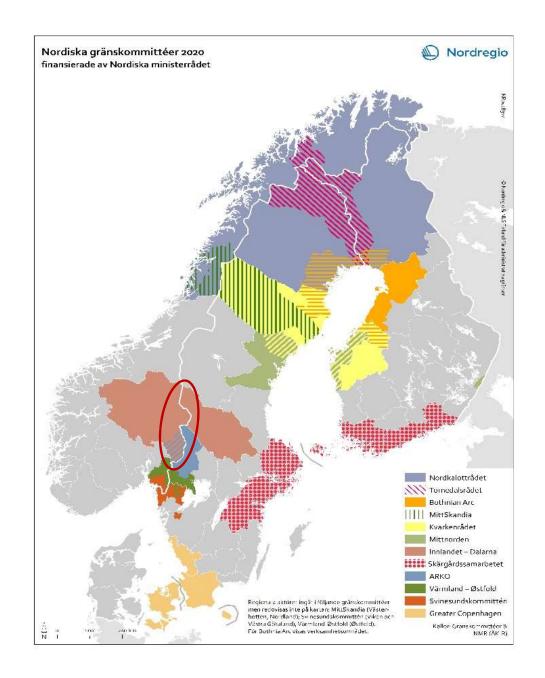

Border Committee

County Administrative Boards of Dalarna and Innlandet

County Development Board Dalarna and Innlandet

- Green Transition
- Labour market
- Development strategies
 - Place management

Supported by the Nordic Council of ministers

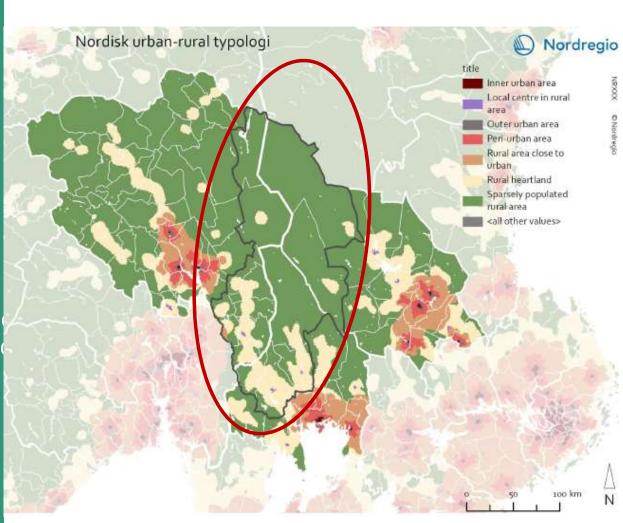

Sparcely populated: 4,8 inh/km2

High touristic activity: + 40 – 60.000 beds until 2030

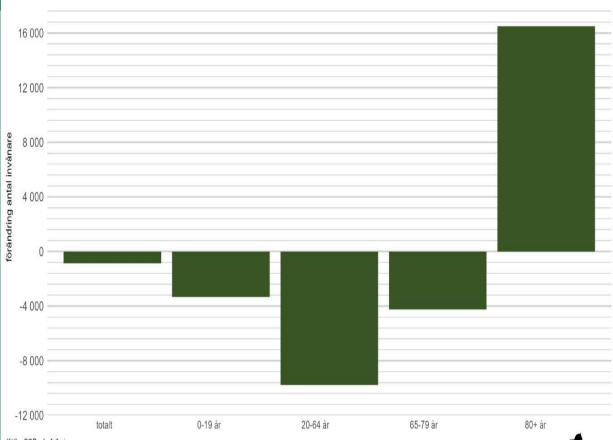

Increasing multi living / second home + 200-400% population during sease

Low unemployment

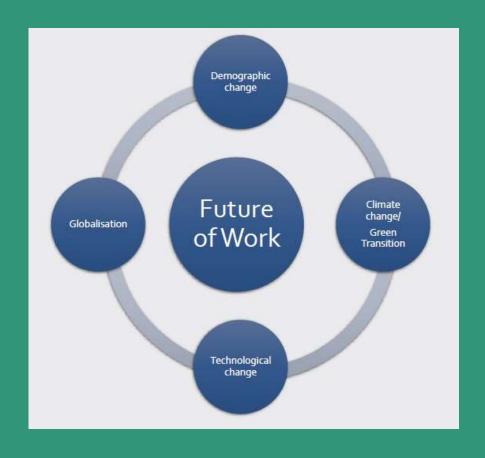

Decreasing labour force Low depopulation

Projectet demografic change 2021-2031

How can we use the border regions assets to improve labour skills and labour supply?

B-solutions project:

Cross border vocational hight quality education.

Expert: Kjell Nilsson, Sweden

Educational system

What we know:

- Different systems in Norway and Sweden that make combinations difficult
- No administrative or legal obstacles for cross border education
- Very few make use of vocational studies across borders.
- Decreasing educational offers due to few applicants.

(AEBR report on Cross border vocational quality education, june 2021)

Task force Torsby municipality:

Study trips to companies for all 7-8 graders

Summer jobs at companies

Remote part time nurse education

Promoting existing educations

Promoting existing educations

Career-centers in Innladet county

Adapting educations to individual skills.

Promoting existing educations.

Promoting educations across borders.

Company needs

What we know:

- Low unemployment rate
- High need of skilled workers (bioeconomy, snow tecnicians, ...)
- High number of seasonal workers

(Nordregio report, 2022)

Snow technicians

Meeting highly specific needs

In collaboration with companies

Distance - part time - practice

New cross border educations

Education North - Övertoreå

Finland-Sweden-Norway

In cooperation with employment agency

Adapted to needs of businesses

Adult cross border educations

Attracting digital skills

What we know:

- High competition for labour between regions in the Nordic countries
- High number of second home-owners / multi locality
- Small municipalities

(Nordregio report, 2022)

Enjoy SITE-destination

4 border municipials

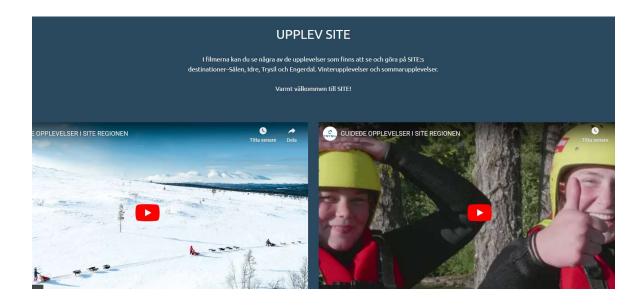

Mobility solutions

Cross border development plans
